

FOREIGN NEWS.

By the arrival of the steamers Jura and Asia, we have European advices to the 12th instant.

The report of the death of Lord Elgin is confirmed.

A serious revolt has occurred among the hill tribes of India, and a sanguinary engagement has been fought.

The steamer Pampero has been formally seized by the custom house authorities in England.

Russia in regard to the European Congress, in a published reply, expresses the ardent desire for the pacification of Europe by an understanding between the sovereigns, but says it is indispensable that the Emperor of the French should define the questions upon which an understanding could have been arrived at, and the basis upon which such an understanding should be established.

It was stated that the Alabama was expected at Madras, and that remittances had been made to that port to meet her disbursements.

The Vanderbilt left Mauritius on the 10th of October in a cruise after the Alabama, Captain Baldwin having been notified of her appearance off Ceylon.

The Florida and Georgia are both being rapidly fitted out at Brest and Cherbourg, respectively. The former was expected to put to sea in a very few days.

The Rappahannock was being rapidly completed at Calais.

Fears of further advance in the rate of discount of the Bank of England have somewhat diminished. Confederate loan, 35 to 40 per cent.

The Liverpool cotton market was firmer, and prices $\frac{1}{2}$ d. higher at the week's sales. The sales of the week were 32,000 bales.

The Federal steamer Kearsage was outside Plymouth Sound on the 10th instant.

It was reported that the President of the German Federal Diet had notified the Danish Government that in three days Denmark does not comply with the demands of the Diet, the Federal troops will enter Holstein.

By these arrivals we have accounts of a prize fight between Heenan and King, in which the former was beaten severely. This fight had been the all engaging topic in England. The papers give elaborate accounts, and King's victory was received with great exultation.

The Times says the prize fight was a fair stand up affair, and ended in the decisive victory of King, and hopes it will be the last great fight. Heenan was badly punished. The earlier rounds were decidedly favorable to Heenan, but King showed the most endurance.

The affair was over in 24 rounds, and 35 minutes.

There appears to have been little science on either side, but it was a fair stand-up fight without check. The Times concludes by insisting that prize fighting is more revolting than bull fighting, and ought to be discouraged. Tom Sayers was one of Heenan's seconds. On the arrival of Heenan in London he received the best medical assistance, and although his bruises and contusions were found to be very severe, none of his bones were broken, and he had received no internal injury. His head exhibited a most ghastly appearance. His old lip wound had reopened, and his eyes were nearly closed.

Letters to Members of the U. S. Congress need not be prepaid. The transmission and receipt of mail matter by them continues as heretofore, under the franking privilege, namely, free. All unofficial correspondence, however, addressed to any Executive Department of the U. S., or any officer of it, must now be paid.

The Light House on Frying Pan Shoals was blown away on the eighteenth instant.

PROF. LOUIS WUNDRAM'S
CELEBRATED HERB MEDICINES,

NOW for the first time introduced into this country, have been successfully used for twenty-six years in Germany, and the rest of Europe, and are particularly efficient in the cure of all chronic diseases. They are imported direct to this port by the undersigned, and their efficiency and safety can be relied upon with confidence. They are

DENTISTS.**

NEW AND IMPROVED INVENTION OF
ARTIFICIAL CHEOPLASTIC BONE TEETH
WITHOUT METAL PLATE OR CLASPS.

DR. S. B. SIGESMOND & CO.,

211, King Street, Alexandria, Va., 910 Broadway, New York—200 Pennsylvania Avenue, between 12th and 18th streets, Washington,

CALLS the attention of the public to the following advantages of his improved system:
1. The Teeth of their manufacture will never corrode nor change color by any acids, being three-fourths lighter than any other.
2. No teeth or roots need be extracted, as the artificial ones can be inserted over them.
3. The roots will be made inoperative and never to ache.

4. No temporary teeth are needed, as permanent ones can be made immediately, thereby preserving the natural expression of the face, which under the old system is frequently disfigured.

5. This work has been fully tested over five years by many of the first chemists and physicians of this country.

Dr. S. & Co., have also invented a white undestructive metal filling, with which the most sensitive teeth can be filled without pain, and can build up a perfect sound tooth on any side roots, which will last through lifetime.

The best of references given by Dr. W. Mott; Dr. Doremus, Professor of Chemistry, N. Y., and thousands of others.

Call and examine for yourself.

Office hours from 10 a. m., to 3 p. m., on Tuesdays, Thursdays, and Saturdays.
